UNIVERSITÄT  
WIEN

# Superconductivity Seminar

Summer Term 2019

This seminar takes place on Mondays, 16:15 in the library of the Atominstitut, Stadionallee 2.

- |                |  |
|----------------|--|
| 11. March 2019 | Mattia Donato<br><b>MgB<sub>2</sub> wire development at Columbus</b>   |
| 18. March 2019 | Michael Eisterer<br><b>Introduction</b>  |
| 8. April 2019  | David Fischer<br><b>Coated conductors for nuclear fusion reactors</b>  |
| 13. May 2019   | Raphael Unterrainer<br><b>Radiation resistance of technical superconductors</b>                                |
| 20. May 2019   | Michael Eisterer<br><b>Current percolation in grain boundary limited superconductors</b>                       |
| 27. May 2019   | Ruben Hühne, IFW Dresden<br><b>Unconventional superconducting thin films: Growth, strain &amp; granularity</b> |
| 17. June 2019  | Sigrid Holleis, Mattia Ortino<br><b>Talks to be given at the FCC week 2019</b>                                 |
